

We are a team of young professionals focused on delivering highest quality of service, with over 20-years experience in the automotive industry. First as a Dutch registered company and now as a Maltese registered company – Car Parts Ltd.

Our main advantage is that we started very early. 🇲🇹

Throughout the years we have gained plenty of knowledge and experience.

This helps us offer the best service at the most competitive prices, with no compromise in quality.

Our suppliers are mainly the key players from Germany and Poland.
