

We offer services of renovation and restoration of all chrome parts for motorcycles, passenger cars and trucks such as:

- bumpers
- grilles
- mirrors
- wheels, etc.

Typical process of restoration consists of the following steps:

1. Removing old varnish layers.
2. Grinding and polishing.
3. Applying mat nickel.
4. Applying copper.
5. Nickel plating with shine.
6. Chroming.
7. Final washing and polishing.
